Polyester Fiber Cement Board

1, Polyester fiber cement board is composed of siliceous and calcareous materials, adhesive layer and dipping paper. Products for asbestos free new decorative materials, products look like marble, surface color diversity, can decorate a variety of effects, beautiful and generous. The product is cheap, non combustible, waterproof and moisture-proof, sound insulation, low conductivity, and is an ideal insulation material. The product is light in weight, high in strength, simple in construction and long in service life.

2. Features of Polyester fiber cement board:

- 1) No asbestos, no formaldehyde, environmental safety
 - 2) Non combustible, fire rating a
 - 3) Fire resistance: the products are treated with special technology and 100% waterproof
 - 4) Color diversity, no fading, no color change
 - 5) The product is matt surface, smooth and delicate, no light pollution, simple maintenance
 - 6) Superior sound insulation effect ensures quiet and elegant environment of decoration place
 - 7) The product uses high-strength plant fiber as reinforcement material, light weight, but in the impact, compression, tensile, bending performance, superior performance
 - 8) Antibacterial, widely used in the medical field
- 3, Application: hospital, nursing home, shopping mall, office, interior decoration
